OUR EXPORTS.

It is critainly gratifying to all true An ericans to know that of late years our exports and largely exceeded our imports, not at one in such single articles as whe draud feet, but in almost every branch of industry. Ten years ago nearly all the per innery and toflet articles used in this country, were imported from Europe, to day wa not joily maininketure for courselves, but are large exporters to Kuth America, Chilin, Jayan and the Golonics. The inomense growth of this particular industry on the Pacifit Coast is simply astonishing. Physapeteria, Oct. 6th, 1981.

Dear Nir.—I beg to call your attention to the enclosed letter to Sension Morrill of Vermont, and I will thank you to thorat me what objection, if any, you have to the proposal for abolition of insermatianes. hattaxes.
It is my desire to obtain the views of prominent men, so that the question can be properly presented to congress in December.

ject of the effort which the protectionists are to lavy a sufficient tax for operating expenses. nraking for abolition of internal taxes.

This, however, is by uo means the only bhis derived from liquors (spirituous and ma t); and from tobacco. These are the very articles. which ought to pay taxes so long as taxes are. required for any purpose whatever. The proposal to abolish inter a taxes, while keeping up the excessive and oven prohibitory duties levied under the existing system of "protection," means cheap whisky and dear clothing, an untaxed beer barrel and an oxcess ve tax on iron in every form, free tobacco and dear sait, cheap cheroots and high priced printing paper. The purpose of all this is to assure continuance of enormous profits to eastern iron-masters, salt-boilers, wood-pulp proprietors, and the whole train of monopolists who are "protected" at the expense of all the consumers of the country. No! Let as continue to tax consumers of whisky, beer and sugar and sal , cheaper railroad from cheaper ship-building materials and onesper tools for our farmers and mechanics. Besides at these there are things without end which, if they could be had cheaper, would be better for a country than free whis ty and untaxed tobacco. Therefore we are not able to agree with Mr. Barker on repeal of the internal tax laws, in order that the consumers of the country may be robbed intefinibly for the benefit of protected monopolists. Take off the prohib. fory duty on iron, so that we may have chesp ships and get ow freigh s. This would be of more value to us of the Pacific coast that cheap whisky, or tobacco without price. Circulars of this gort show that there is to be a concerted effect on the part of the protec-

tionists to save their acvantages by making. As atomout of the cotton crop of the Unitwar on the internal revenue system. As a general thing pistols are carried only by ow characters too poor to pay a liceuse tax; yet the number of pistols in the hands of this case th oughout the country would furnish an army of two hundred thousand men. The general government no doub could do more to suppress the practice of carzying piatols than all the states combined Statutes similar o those by which it suppresses illicit traffic in liquors and tobacco would do the work thoroughly. The general governmen: is too, big to be affected by the clamor tha would be raised by the putol-carrying gang. and they would be obliged to submit. No state could punish the outling of timber on the public lands, but the general government can, because its statutes are enforced by officials not" immediately dependent on the people of particular localities. I would be the same with an act of congress prohibiting the carry ing of pistols except on license first obtained The license should be so righ as to place pisto parrying above the reach of the irresponsible classes. Few of any other sind carry them, o want to carry them.

Since President Garfiel d'a death Ex-Governo Jewell of Connectiont has made a statemen that be arrived in Washington on the 3d July the morning after the president was that, and next day had a conversation with Dr. Frank Hamilton, who freely told him that the patien could not live and gave reasons for the opin ion that were afterwards in filled almost to the letter. The state of New York has a new code of laws, which, in many respects is said to be, an improvemen; on the old one. The selection of juries for the trial of criminal cases has been, in important partieu ars, revised; and improved. The ancien; and favorite question always propounded to individual jurors, "Have you formed and expressed an opinion as to the guit or innocence of the defendant?" has been shorn of much of its disqualifying significance, as, it las been provided that previous impressions obtained from reading newspapers or hearing the matter falked over shall not cause a cisqualification, if the person interrogated shall a mource that, notwit istanding his previous impressions, no matter upon what founded except that of being a , witness to the transaction, he feels that he can render an impartia verdict according to the sevidence. That is as it should be and goes for towards securing, upon the rial of criminal cases particularly, intolligon men to serve is jurors and fot the ignarant kind who never read a newspaper and are meapable of forming an intelligent opinion apon a given state

In a table of earnings of the principal railroad companies of the courtry from January 1st to September 30th, 1881, published by The Pinancial Chronicle (New York) the carnings. of the Oregon Railway and Navigation company are set down at \$3,057,4.5. For the corresponding period of 1880 the carnings of the company were \$2,476,627. Increase for nine

LESSEE AND MANAGER The two forming a through trans-continental line, wil earn upwards of \$40,000,000 this, year. It is plain that the estimate made by Co., bankers of Philad Iphia, has addressed to Northern Pacific may be expected to carn the Vice-President Jakes of the amount which the abolition of all internal taxes. This letter has 785,000 his no, an extravagant one.

Under the city charter a tax aggregating fifteen mills, for all purposes, may be levied. The provisions of the charter under which taxes were levied for deepening the river selow the city/several years ago have nover seen repealed, and are therefore still in force. The common counci therefore has power to evy a tax for building one or more dredges and going The letter to Senator Morrill argues the 'on with this improvement. As the tax for proposition at length. But the argument is other purposes will be six or seven mills, there not conclusive. It omits all mention of he wil remain say eight mills which may be levreal reason way the proposition is submitted, ied for ther improvement, before the limit of Philadelphia s the cen re of our "protective" taxition is reached. This, hawever, will be fariff system. Men like Mr. Barker perceive more than is necessary, at all events after the that the country is growing restive under the first year. A six mill tax on the property of exactions of this system, and that there is an the city would produce say \$75,000, which increasing demand for modification of it. To would build a lowerful-firedge and operate it EMMET GUARD, CO. B., O. S. M., anticipate this doman I and foil it is the ob- one season. After that it would be necessary

Ic compliance with a request of the sanate jection to the proposal. By far the greater that they be in ormed of what had been done part of the revenue raised by internal taxat on in the matter of the Panama canal President Arthur has sont to that body the report made by Secretary Blaine. This report, a copy of which was sent to all the ministers of the United States in Europe, is to the offect that way over which the United States and Colombis must maintain the entire political power, and any attempt on the part of European nowers to interfere, with such supervision will be regarded by the United States as medclesome and indicative of an unfriendly feeling. This statement has been sent to the different ministers of this courtry in Europe, with instructions to nform the soveral powers to which they are acceptized of the stand taken by the United S atos in the master.

It would seem from the telegraphic reports tobacco, and have cheaper clothing cheaper to be appointed to a position in President Arthat A. A. Bargent, of California, en-senttor, is thur a cabinat. At Washington it is urged that this would hapire confidence in the new administration on the Pacific coast. But the San Francisco Chronicle very truly says: "In he Call ornia campaign of 1877 every republ can at all anxious to be elected to the legis ature was o'liged to publicly rejuciate Sargent. The fear that he might be re-elected to the United States senate caused the overwhelming de cat of the republican party hat year, and resulted in the election of Farley, a democrat. THE "HERPOL MATCH."

A product of Oregon industry, is schibited and well worth inaspection. The "Cosmopolitan Match Co" by which the "Devial Match" is made, it a Portignal company, and most of the insterials unployed are produced in the lates. Twenty-three processes are employed to perpent these matches for the trade. It is accurant falls the white cedar tree; both from 6.0 12 inches equire are camployed to perpent these both are passed both are sured up two lengths of matches long; these both are passed both even powerful steel policies to med the made; then the saw cuts the blocks in two; them here, blocks are smoothed on one and; they holds are passed third a dry ituse; when dry they are passed through a splitting machine; the courds are well opened up and purified they are phased on moks in a dry house; after this the cards are made very lost on bested concaves; then the cards are made very lost on bested concaves; then the cards are included in them; has cards are dutied in the course pass through we asparate processes of dipping; now the outle ag table; these small bunches are really in the late has cards are dutied in them; has cards are dutied in the course and attention and the same of the mount and containing the goos each; after the time are scaled up all tight and transport, and are store the former and attention are really on the president of the company and are sow employed in this factor; about the matches are fast superfect to California matches and are fast superfect to California matches and are fast superfect to California.

THE BROW AND LEATHER SANGER O'Leinenweber & Oo, of Astoris, which we saually recultured last week is worth all the favorable consent that is made upon it. QUALITY, QUANTITY AND PRICE Are three great considerations to commert in general tee of LUBRICANTS. On the we have our claims to the Trude, and coulde

OLL from shark livers to well known to pos nem very superior inhefeating properties, and that manufactured by the Nildegate Oil Company, at their means works, Queen Charlate Island, has been tested in competition with Lard; Olive, Gailipell and Emagoon Olis, and Insevery instance has proved its superiority. The QUALITY is good, beyond a doubt, a less QUANTITY in required, and the PRICE placed at a rate that is bound to command a large sair, and give satisfaction to the con-sumer. The Company has aumerous testimoni-
